Home: 417, Tara Estate, Near Krishna Mandir, Abohar, Fazilka, , 152116 Punjab (India)

ABOUT ME

I am a result-oriented Computer Science graduate with a strong foundation in programming, algorithms, and IoT-based systems, seeking admission to the BSc in Industrial Engineering Technology at the University of Cassino and Southern Lazio. I aim to specialize in industrial automation, cyber-physical systems, and smart manufacturing, applying software expertise to real-world hardware-software integration and production environments.

WORK EXPERIENCE

Buyhatke Internet Private Limited – Jalandhar, India

Web application developer

[04/2022 – 08/2023]

- Worked with structured data flows and system logic to improve reliability and performance.
- Applied algorithmic thinking and debugging practices transferable to industrial control systems.
- Developed discipline in documentation, testing, and process optimization.

Lovely Professional University – Punjab, India

Codathon President

[05/2021 – 02/2022]

- Led and organized intra- and inter-university coding competitions.
- Coordinated with industry mentors from Google Developer Club, IEEE, ACM, CodeChef, and LeetCode.
- Conducted workshops on GitHub, professional coding practices, and career development.

EDUCATION AND TRAINING

Diploma in computer science and engineering

Lovely Professional University [04/08/2020 – 03/08/2025]

- Programming, Data Structures, Algorithms, Web Technologies, Databases

Senior Secondary Certificate Examination

Central Board of Secondary Education [08/2018 – 06/2020]

City: Abohar, Fazilka, Punjab | **Country:** India | **Website:** <https://davabh.org> | **NQF Level:** 4

Economics, Business Studies, Accountancy, Information technology, English

Secondary Education

Central Board of Secondary Education [04/2016 – 06/2018]

LANGUAGE SKILLS

Mother tongue(s): Hindi

Other language(s):

English

LISTENING B2 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

[08/2019 – 02/2020]

Home Automation: Motion sensor power cut

- Designed an IoT system using Raspberry Pi and Python to collect and process real-time sensor data
- Handled motion-sensor inputs and automated decision logic based on incoming data streams

[03/2019 – 06/2019]

Surveillance drone

- Worked on system integration and control concepts for data-driven autonomous monitoring systems

SKILLS

Engineering & Automation Foundations

Industrial IoT concepts / Safety and operational discipline / Basic circuit and system integration awareness

Programming & Digital Skills

Python / SQL / Logical programming and automation scripts

Tools

Microsoft Excel (data handling and analysis) / Awareness of AutoCAD and technical drawing concepts / Technical documentation

ACHIEVEMENT AND EXTRACURRICULAR ACTIVITIES.

Positions & Responsibilities

- School Academic Captain: 2019-20
- Multiple academic proficiency awards
- District-level quiz and inter-school competition awards

I am highly motivated to develop strong competencies in industrial engineering, automation, and cyber-physical systems through the BSc in Industrial Engineering Technology at the University of Cassino and Southern Lazio, preparing for engineering-oriented roles in manufacturing and technology-driven industries.

Punjab, India, 26/02/2026
